MONTROSE with 50mm trim

FRAMING

CLEARANCES

HEAT DISTRIBUTION

MANSFIELD & MONTROSE

Increase the effectiveness of your fireplace by dispersing warm air from the fireplace to remote locations in the same room or other rooms in your home by using the heat distribution kit.

Note: Heating capacity and any burn times are a guide only and can be affected by some or all of the following examples: drafts under doorways or between floorboards, large glass areas not covered by heavy drapes/curtains, green, wet or damp wood, ceiling heights greater than 2.4 metres or cathedral type ceilings, poor or no insulation.

All product specifications are subject to change without notice. Before installing refer to the relevant product manual for full and up to date information. Product pictures are a guide only, all wood fires must be installed as per AS 2918. All Regency wood fires exceed stringent joint Australian and New Zealand Standards AS/NZS 4012/4013 (2014). Not all products are available at all outlets.

Energy Specifications

Optimum Efficiency	62%
--------------------	-----
